

DS Spot LED Machine Lamp

Patent
Invention I 330239

Features

- ◆ Fine engineering plastic lighting head with design of heat convection provides quick heat dissipation and extends bulb service life.
- ◆ Designed with thread for lamp head, MR16 lamp base, easy, tool-free changing lamp bulb. Various fastenings apply to install lamp on different position.
- ◆ Compare with halogen lamp, It's less 80% energy consumption and electricity costs saving.
- ◆ Producing flicker-free light that can illumine steadily even while machine is working and vibrating

Made
In
Taiwan

Specification

Patent	The structure of work lighting arm joint Invention I 330239
Voltage	12V,24V(AC/DC)/AC100V ~240V/120V/230V
Power	5W
Lamp Base	MR16
Glass material	Tempered glass
Head material	Engineering Plastic
Switch	On/off switch
Bean angle	Approx.25° (38° is on request.)

Accessory(Optional)

	Wall Bracket	Clamp
	Magnetic Base	Table Base
